

oerlemans plastics
FLEXIBLE PACKAGING AND FILMS

APPLICATIONS

- ♦ Jerrycans
- ♦ Bottles
- ♦ Drums
- ♦ Kegs

CIRCU-SLEEVE

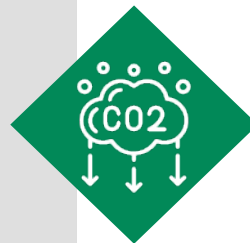

A stretch sleeve is the sustainable alternative for self-adhesive labels or shrink sleeves. No glue or heat is needed when applying, the sleeves fixate themselves tightly around your product. With its 360 degree printing surface it is excellent for information and advertising purposes. Applications include jerry cans, industrial barrels and gas bottles, but also milk cans and soft drink bottles.

The Circu-sleeve is made out of >80% PCR Post Consumer Recycled material.

Even more sustainable!

Made out of 80% Post Consumer Recycled materials

Possible CO₂ reductions of 58,5%

100% recyclable
